### Professional Summary

Senior Full Stack Developer with over 11 years of experience building scalable and secure web applications using PHP, Laravel, Symfony, JavaScript, React.js, Vue.js, Node.js, REST APIs, AWS Cloud, and databases such as MySQL and PostgreSQL. Experienced in overseeing full project lifecycles, backend engineering, API integrations, and CMS solutions including WordPress, Drupal, and vBulletin. Strong expertise in frontend and backend development, performance optimization, and secure coding best practices. Known for delivering high-impact solutions in Agile environments, collaborating with cross-functional teams, and leading development efforts.

### Technical Skills

- CMS Platforms: WordPress, Shopify , Drupal , vBulletin
- Languages & Frameworks: Node.js, PHP, Laravel, Symfony, Elasticsearch, Python, ASP.net , C# , R, Linux, Bash, Shell scripting
- Frontend: HTML5, CSS3, SCSS, SASS, JavaScript, TypeScript, Bootstrap, Foundation, Tailwind, React.js, Next.js, Vue.js, Angular , Ember.js, Flutter, Webpack, Vite, Gulp
- Databases: MySQL, SQL , Oracle , SQLite , PostgreSQL, MongoDB, Firebase
- DevOps: Docker, Docker Compose, Kubernetes, Nginx, Apache, AWS, Google Cloud, CI/CD , Git, GitLab, GitHub, Bitbucket , SonarQube
- Testing: Unit Testing , , Selenium , JUnit , Jest , Postman , PyTest , Cypress , TestNG , Robot Framework
- Integrations: RESTful APIs, XML APIs, OAuth2, JWT, SSO, SSL, TLS, GTM, CRM, SEO Optimization, Schema.org
- Tools & Methodologies: Jira, Agile, Scrum , Kanban , Waterfall

## Work Experience

### Senior Full Stack Web Developer – Standing on Giants, London (Jan 2023 – Present)

- Developed and maintained 20+ scalable applications using Node.js, PHP, Laravel, Symfony, React/Next.js, and PostgreSQL, increasing delivery speed by 25%.
- Designed and deployed optimized Drupal modules and WordPress solutions, improving page load times by 60% and boosting engagement by 35%.
- Implemented responsive UIs using HTML, CSS, JavaScript, Bootstrap, Tailwind, React, and Vue.js, increasing mobile usability by 40%.
- Managed cloud services across Google Cloud, Azure, and AWS.
- Optimized MySQL performance achieving 30% faster queries and 99.9% data availability.
- Resolved critical bugs within 2 hours on average, ensuring 99.5% system uptime.
- Applied secure coding practices preventing all major security breaches across projects.
- Led end-to-end development cycles and mentored development teams.
- Conducted peer code reviews, improving maintainability and reducing bugs by 15%.

### Senior Full Stack Web Developer – Devvly LLC, Chicago (Jan 2019 – Jan 2023)

- Improved project planning accuracy by 30% through detailed requirement analysis.
- Led technical requirement-gathering sessions resulting in 95% client satisfaction.
- Enhanced system reliability by 40% and reduced deployment errors by 20%.
- Led and coordinated teams of 5–8 developers, improving completion rates by 15%.
- Mentored junior developers, reducing onboarding time by 50%.
- Built backend systems using PHP, Laravel, Symfony, WordPress, and Drupal.
- Developed responsive UIs using HTML, JavaScript, TypeScript, Bootstrap, Vue.js, Angular, and Ember.js.
- Delivered and maintained WordPress sites reducing maintenance workload by 30%.
- Achieved 100% on-time delivery for all assigned projects.

### Senior Full Stack Web Developer – Touristtube, Beirut (Jan 2017 – Jan 2019)

- Launched 12+ web modules aligned with organizational quality standards.
- Designed scalable system architectures improving reliability and performance.
- Achieved 99.9% uptime by ensuring seamless operation across environments.

- Converted UI/UX mockups into responsive interfaces reducing development time by 20%.
- Improved system performance by 10% through frontend and backend optimization.

#### **System Integrator Engineer – Mobinets, Tripoli (Jan 2016 – Jan 2017)**

- Conducted thorough software and functional testing reducing post-deployment issues by 25%.
- Installed and deployed NEP solutions and Oracle Database across 7 global telecom operators.
- Collaborated with IT teams on high-availability setups and server configurations.

#### **Junior Web Developer – AMC, Tripoli (Jan 2015 – Jan 2016)**

- Developed multiple websites using HTML, CSS, JavaScript, jQuery, Bootstrap, PHP, and MySQL.
- Improved UI/UX engagement and reduced bounce rates by 15%.
- Integrated data from backend services ensuring smooth real-time updates.
- Participated in full development lifecycle supporting senior teams.

#### **Education**

Master of Science in Computer Engineering (Jan 2012 – Jul 2017)  
Lebanese International University – Lebanon

#### **Languages**

- English – Very Good
- Arabic – Excellent
- German – A1
